1 Identification

- **Product identifier**
  - **Product number**: PM10
  - **Trade name**: GLOSS WHITE POLYURETHANE FINISH
    - Application of the substance / the mixture: For professional use

- **Details of the supplier of the safety data sheet**
  - **Manufacturer/Supplier**: IVM Chemicals srl
    Viale della Stazione 3 - 27020 Parona (PV) Italy tel +39 038425441
  
  1.3.2 Importer
  Name I.C.& S. DISTRIBUTING CO.
  Address P.O.BOX 10845
  LANCASTER, PA
  USA
  E-Mail: nelson@ics-company.com

  - **Information department**: Environmental Health and safety office
    hseoffice@ivmchemicals.com
  - **Emergency telephone number**: ChemTel Expert Assistance Hotline/MSDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

2 Hazard(s) identification

- **Classification of the substance or mixture**
  - GHS02 Flame
    Flam. Liq. 3 H226 Flammable liquid and vapor.
  - GHS08 Health hazard
    Carc. 2 H351 Suspected of causing cancer.
    STOT RE 2 H373 May cause damage to the hearing organs through prolonged or repeated exposure.
  
  - GHS07
    Skin Irrit. 2 H315 Causes skin irritation.
    Eye Irrit. 2A H319 Causes serious eye irritation.

- **Label elements**
  - **GHS label elements**
    The product is classified and labeled according to the Globally Harmonized System (GHS).
  - **Hazard pictograms**
    - GHS02
    - GHS07
    - GHS08

  - **Signal word** Warning

(Contd. on page 2)
· Hazard-determining components of labeling:
  xylene
  ethylbenzene

· Hazard statements
  H226 Flammable liquid and vapor.
  H315 Causes skin irritation.
  H319 Causes serious eye irritation.
  H351 Suspected of causing cancer.
  H373 May cause damage to the hearing organs through prolonged or repeated exposure.

· Precautionary statements
  P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
  P241 Use explosion-proof electrical/ventilating/lighting/equipment.
  P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
  P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
  P405 Store locked up.
  P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

· Classification system:
  · NFPA ratings (scale 0 - 4)
    Health = 2
    Fire = 3
    Reactivity = 0
  · HMIS-ratings (scale 0 - 4)
    HEALTH 2
    FIRE 3
    REACTIVITY 0

3 Composition/information on ingredients

· Chemical characterization: Mixtures
  · Description: Mixture: consisting of the following components.

· Dangerous components:

<table>

4 First-aid measures

- **Description of first aid measures**
  - **General information:**
    - Immediately remove any clothing soiled by the product.
    - Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.
    - Personal protective equipment for first aid responders is recommended. (please see section 8)
  - **After inhalation:**
    - In case of unconsciousness place patient stably in side position for transportation.
  - **After skin contact:**
    - Immediately wash with water and soap and rinse thoroughly.
    - Take off immediately all contaminated clothing, include underwear and shoes (if necessary).
    - Rinse thoroughly with plenty of water for at least 20 minutes and take medical advise. If medical advise is needed have products container or label at hand.
  - **After eye contact:**
    - Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
  - **After swallowing:**
    - Do not induce vomiting; immediately call for medical help.
  - **Information for doctor:**
    - **Most important symptoms and effects, both acute and delayed**
      - For symptoms and effects caused by substances, refer to Section 11.
      - No further relevant information available.
    - **Indication of any immediate medical attention and special treatment needed**
      - No further relevant information available.

5 Fire-fighting measures

- **Extinguishing media**
  - **Suitable extinguishing agents:** Alcohol resistant foam, CO₂ powder, water spray/mist.
  - **For safety reasons unsuitable extinguishing agents:**
    - Do not use a jet water stream as it may scatter and spread fire.
  - **Special hazards arising from the substance or mixture**
    - During heating or in case of fire poisonous gases are produced.
  - **Advice for firefighters**
    - Cool by spraying with water the containers to prevent product decomposition and the development of substances potentially hazardous for health and also, in the case of closed containers exposed to flames to prevent explosions.
    - **Protective equipment:**
      - Hardhat with visor, fireproof clothing, suitable gloves and if necessary respiratory protective device.

6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**
  - Mount respiratory protective device.
  - Wear protective equipment. Keep unprotected persons away.
  - Ensure adequate ventilation
  - Keep away from ignition sources
- **Environmental precautions:** Do not allow to enter sewers/surface or ground water.
49.0.14

Methods and material for containment and cleaning up:
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
Dispose contaminated material as waste according to Section 13.
Ensure adequate ventilation.

Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

Handling and storage

Handling:

Precautions for safe handling
Ensure good ventilation/exhaustion at the workplace.
Open and handle receptacle with care.
Prevent formation of aerosols.
Protect against electrostatic charges.
Keep respiratory protective device available.
Use explosion-proof apparatus / fittings and spark-proof tools.

Information about protection against explosions and fires:
Keep ignition sources away. Do not smoke.
Protect against electrostatic charges.
Keep respiratory protective device available.

Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles:
Provide solvent resistant, sealed floor.
Observe the label precautions, the expiration date for the use, if not indicated, is from delivery date of goods.
In cases where there is no reported expiration date, it means that the product must be used within 8 months.

Information about storage in one common storage facility: Not required.
Further information about storage conditions: Keep receptacle tightly sealed.
8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.

- Control parameters

  - Components with limit values that require monitoring at the workplace:
    The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit.
    At this time, the remaining constituent has no known exposure limits.

<table>

- Additional information: The lists that were valid during the creation were used as basis.
Avoid contact with the eyes and skin.

Breathing equipment:
In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

Protection of hands:

Protective gloves

Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

The glove material has to be impermeable and resistant to the product.

- Material of gloves
  The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.

- Penetration time of glove material
  The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:

- Tightly sealed goggles

9 Physical and chemical properties

Information on basic physical and chemical properties

- General Information
  - Appearance:
    - Form: Fluid
    - Color: According to product specification
  - Odor: Characteristic
  - Odor threshold: Not determined.
  - pH-value: Not determined.

- Change in condition
  - Melting point/Melting range: Undetermined.
  - Boiling point/Boiling range: 78 °C (172.4 °F)

- Flash point: 25 °C (77 °F)

- Flammability (solid, gaseous): Not applicable.

- Ignition temperature: 315 °C (599 °F)

- Decomposition temperature: Not determined.

- Auto igniting: Product is not selfigniting.

- Danger of explosion: Product is not explosive. However, formation of explosive air/vapor mixtures are possible.
Explosion limits:
- Lower: 1 Vol %
- Upper: 10.8 Vol %

Vapor pressure at 20 °C (68 °F): 10.7 hPa (8 mm Hg)

Density (+/- 0.03) at 20 °C (68 °F): 1.261 g/cm³ (10.523 lbs/gal)
- Relative density: Not determined.
- Vapor density: Not determined.
- Evaporation rate: Not determined.

Solubility in / Miscibility with
- Water: Not miscible or difficult to mix.

Partition coefficient (n-octanol/water): Not determined.

Viscosity:
- Dynamic: Not determined.
- Kinematic at 20 °C (68 °F): 55 s (ISO 6 mm)

Oxidising properties:
Not determined.

Solvent content:
- Water: 0.0 %
- VOC content: 30.26 %
  381.6 g/l / 3.18 lb/gal

Solids content: 69.7 %

Other information (HAPS)
No further relevant information available.

1330-20-7 xylene 15-19.99%
100-41-4 ethylbenzene 2.5-4.99%
108-88-3 toluene <0.1%

Other information
No further relevant information available.

10 Stability and reactivity

Reactivity typical of the product as indicated in the data sheet
- Chemical stability: The product is stable in normal conditions of storage and use recommended
- Thermal decomposition / conditions to be avoided:
  No decomposition if used and stored according to specifications.

Possibility of hazardous reactions
Reacts with oxidizing agents.
Vapours may form explosive mixtures with air.

Conditions to avoid
No further relevant information available.

Incompatible materials: No further relevant information available.

Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information

Information on toxicological effects

Acute toxicity:
- LD/LC50 values that are relevant for classification:

### Primary irritant effect:
- **on the skin**: Irritant to skin and mucous membranes.
- **on the eye**: Irritating effect.

### Sensitization:
No sensitizing effects known.

### Additional toxicological information:
- **Irritant**
- Causes skin irritation.
- Causes serious eye irritation.
- May cause damage to the hearing organs through prolonged or repeated exposure.
- Contains fatty acids, tallow, oleylamine compounds. May produce an allergic reaction.
- If medical advice is needed, have product container or label at hand.
- Keep out of reach of children.
- Read label before use.

### Carcinogenic categories

#### Titanium dioxide

IARC’s Monograph No. 93 reports there is sufficient evidence of carcinogenicity in experimental rats exposed to titanium dioxide but inadequate evidence for carcinogenicity in humans and has assigned a Group 2B rating. In addition, the IARC summary concludes, "No significant exposure to titanium dioxide is thought to occur during the use of products in which titanium is bound to other materials, such as paint."

#### Ethylbenzene

From IARC MONOGRAPHS VOLUME 77/2000

Human carcinogenicity data

Two studies of workers potentially exposed to ethylbenzene in a production plant and a styrene polymerization plant were available. In the first study, no excess of cancer incidence was found but the description of methods was insufficient to allow proper evaluation of this finding. In the second study, no cancer mortality excess was observed during the follow-up of 15 years.

Evaluation

There is inadequate evidence in humans for the carcinogenicity of ethylbenzene. There is sufficient evidence in experimental animals for the carcinogenicity of ethylbenzene.

Behavior in environmental systems:
Bioaccumulative potential
No further relevant information available.

Mobility in soil
No further relevant information available.

Additional ecological information:
General notes:
Water hazard class 2 (Self-assessment): hazardous for water
Do not allow product to reach ground water, water course or sewage system.
Danger to drinking water if even small quantities leak into the ground.

Other adverse effects
No further relevant information available.
13 Disposal considerations

· Waste treatment methods
  · Recommendation:
    Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
    Hand over to hazardous waste disposers.
    Dispose of contents and container in accordance with local state and federal regulations.

· Uncleaned packaging:
  · Recommendation: Disposal must be made according to official regulations.

14 Transport information
