#### **1** Identification

- · Product identifier
  - · Product number PD1/009
  - Trade name: **SB PAT ANTIQUING BLACK** • Application of the substance / the mixture For professional use
- · Details of the supplier of the safety data sheet
  - Manufacturer/Supplier: IVM Chemicals Srl
     Viale della Stazione 3 -27020 Parona (PV)Italy -Tel +39 038425441
  - Information department: Environmental Health and safety office hseoffice @ivmchemicals.com
  - Emergency telephone number: ChemTel Expert Assistance Hotline/SDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

### 2 Hazard(s) identification

Classification of the substance or mixture
 Flammable Liquids 2
 Skin Irrititation 2
 Eye Irritation 2A
 Toxic to Reproduction 2

H225 Highly flammable liquid and vapor.
H315 Causes skin irritation.
H319 Causes serious eye irritation.
H361 Suspected of damaging fertility or the unborn child.

Specific Target Organ Toxicity - Single Exposure 3H336 May cause drowsiness or dizziness.

Specific Target Organ Toxicity - Repeated Exposure 2

H373 May cause damage to the central nervous system, the lung and the hearing organs through prolonged or repeated exposure. Route of exposure: Oral, Inhalation.

H304 May be fatal if swallowed and enters

Aspiration Hazard 1

#### · Label elements

- · GHS label elements
- The product is classified and labeled according to the Globally Harmonized System (GHS). • Hazard pictograms

airways.

- · Signal word Danger
- Hazard-determining components of labeling: toluene acetone
- Distillates (petroleum), hydrotreated light paraffinic
- xylene
- Hazard statements
   H225 Highly flammable liquid and vapor.
- H315 Causes skin irritation.
- H319 Causes serious eve irritation.
- H361 Suspected of damaging fertility or the unborn child.

## 4 First-aid measures

#### · Description of first aid measures

· General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

personal protective equipment for first aid responders is recommended. (please see section 8) · *After inhalation*:

- In case of unconsciousness place patient stably in side position for transportation.
- · After skin contact:
- Immediately wash with water and soap and rinse thoroughly.

Take off immediately all contaminated clothing, include underwear and shoes (if necessary). Rinse thoroughly with plenty of water for at least 20 minutes and take medical advise. If medical advise is needed have products container or label at hand.

· After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist , consult a doctor.

- · After swallowing: Do not induce vomiting; immediately call for medical help.
- Information for doctor:
  - · Most important symptoms and effects, both acute and delayed
  - For symptoms and effects caused by substances, refer to Section 11.
  - Indication of any immediate medical attention and special treatment needed No further relevant information available.

#### 5 Fire-fighting measures

#### · Extinguishing media

Printing date 08/15/2022

- · Suitable extinguishing agents:
- Alcohol resistant foam
- Alcohol resistant foam, CO, powder, water spray/mist.
- · For safety reasons unsuitable extinguishing agents:
- Do not use a jet water stream as it may scatter and spread fire.

#### · Special hazards arising from the substance or mixture

- During heating or in case of fire poisonous gases are produced. In case of fire, the following can be released: Nitrogen oxides (NOx)
- Carbon monoxide (CÓ)
- · Advice for firefighters

Cool by spraying with water the containers to prevent product decomposition and the development of substances potentially hazardous for health and also, in the case of closed containers exposed to flames to prevent explosions.

· Protective equipment:

Hardhat with visor, fireproof clothing, suitable gloves and if necessary respiratory protective device.

#### 6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Mount respiratory protective device. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources
  Environmental precautions: Dilute with plenty of water. Do not allow to enter sewers/ surface or ground water.
  Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to Section 13. Ensure adequate ventilation.
  Reference to other sections
- See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

## 7 Handling and storage

#### · Handling:

· Precautions for safe handling Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of aerosols. Protect against electrostatic charges. Keep respiratory protective device available. Use explosion-proof apparatus / fittings and spark-proof tools. · Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Keep respiratory protective device available. · Conditions for safe storage, including any incompatibilities · Storage: • Requirements to be met by storerooms and receptacles: Store in a cool, well-ventilated area, away from heat and sources of ignition Provide solvent resistant, sealed floor. Observe the label precautions, the expiration date for the use, if not indicated, is from delivery date of goods. In cases where there is no reported expiration date , it means that the product must be used within 8 months.

· Information about storage in one common storage facility: Not required.

- · Further information about storage conditions:
- Keep receptacle tightly sealed.

Store in cool, dry conditions in well sealed receptacles.

(Contd. of page 10) · on the eye: Irritating effect. · Sensitization: No sensitizing effects known. · Additional toxicological information: Irritant Causes skin irritation. Causes serious eye irritation. Suspected of damaging fertility or the unborn child. May cause drowsiness or dizziness. May cause damage to the central nervous system, the lung and the hearing organs through prolonged or repeated exposure. Route of exposure: Oral. Inhalation. May be fatal if swallowed and enters airways. Product contains: Reportable explosives precursors. Making available, introduction, possession and use according to Regulation (EU) 2019/1148, Article 9. · Carcinogenic categories Carbon Black IARC's Monograph No. 93 reports there is sufficient evidence of carcinogenicity in experimental rats exposed to carbon black but inadequate evidence for carcinogenicity in humans and has assigned a Group 2B rating. In addition, the IARC summary concludes, "No significant exposure to carbon black is thought to occur during the use of products in which carbon black is bound to other materials, such as paint." Ethvlbenzene From IARC MONOGRAPHS VOLUME 77/2000 Human carcinogenicity data Two studies of workers potentially exposed to ethylbenzene in a production plant and a styrene polymerization plant were available. In the first study, no excess of cancer incidence was found but the description of methods was insufficient to allow proper evaluation of this finding. In the second study, no cancer mortality excess was observed during the follow-up of 15 years. Evaluation There is inadequate evidence in humans for the carcinogenicity of ethylbenzene. There is sufficient evidence in experimental animals for the carcinogenicity of ethylbenzene. · IARC (International Agency for Research on Cancer - Cl. 1 and 2) 64-17-5 ethanol 1 in alcoholic beverages 1333-86-4 Carbon black 2B 100-41-4 ethylbenzene 2B · NTP (National Toxicology Program) None of the ingredients is listed. · OSHA-Ca (Occupational Safety & Health Administration) None of the ingredients is listed.

## 13 Disposal considerations

#### · Waste treatment methods

· Recommendation:

Printing date 08/15/2022

- Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
- Hand over to hazardous waste disposers.

Dispose of contents and container in accordance with local state and federal regulations.

#### · Uncleaned packagings:

• Recommendation: Disposal must be made according to official regulations.

• Recommended cleansing agent: Water, if necessary with cleansing agents.
