### Safety Data Sheet acc. to OSHA HCS

Version number 10

Reviewed on 08/08/2019

#### 1 Identification

- · Product identifier
  - · Product number PES7A01
  - Trade name: UV solv-b. white sealer • Application of the substance / the mixture For professional use

#### · Details of the supplier of the safety data sheet

- *Manufacturer/Supplier:* IVM Chemicals Srl Viale della Stazione 3 -27020 Parona (PV)Italy -Tel +39 038425441
- Information department: Environmental Health and safety office hseoffice @ivmchemicals.com
- Emergency telephone number:
- ChemTel Expert Assistance Hotline/SDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

### 2 Hazard(s) identification

#### · Classification of the substance or mixture

Skin Irrititation 2	H315 Causes skin irritation.
Eye Damage 1	H318 Causes serious eye damage.
Sensitization - Skin 1	H317 May cause an allergic skin reaction.
Carcinogenicity 1A	H350 May cause cancer. Route of exposure: Inhalation.
Aquatic Acute 2	H401 Toxic to aquatic life.
Aquatic Chronic 2	H411 Toxic to aquatic life with long lasting effects.

#### · Label elements

· GHS label elements

The product is classified and labeled according to the Globally Harmonized System (GHS). • Hazard pictograms

GHS05 GHS07 GHS08 GHS09

· Signal word Danger

· Hazard-determining components of labeling: oxybis(methyl-2,1-ethanediyl) diacrylate 4,4'-Isopropylidenediphenol, oligomeric reaction products with 1-chloro-2,3-epoxypropane, esters with acrylic acid Quartz (SiO2) (1-methyl-1,2-ethanediyl)bis[oxy(methyl-2,1-ethanediyl)] diacrylate hexamethylene diacrylate phenyl bis(2,4,6-trimethylbenzoyl)-phosphine oxide Reaction product of 2-{2-[2-(acryloyloxy) -1-methylethoxy]-1-methylethoxy}-1-methylethyl acrylate and N-ethylethanamine · Hazard statements H315 Causes skin irritation. H318 Causes serious eye damage. H317 May cause an allergic skin reaction. H350 May cause cancer. Route of exposure: Inhalation. H401 Toxic to aquatic life. H411 Toxic to aquatic life with long lasting effects. (Contd. on page 2)

### 4 First-aid measures

#### · Description of first aid measures

- · General information:
  - Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

personal protective equipment for first aid responders is recommended. (please see section 8)  $\cdot$  *After inhalation:* 

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

#### • After skin contact:

Immediately wash with water and soap and rinse thoroughly.

Take off immediately all contaminated clothing, include underwear and shoes (if necessary). Rinse thoroughly with plenty of water for at least 20 minutes and take medical advise. If medical advise is needed have products container or label at hand.

• After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist , consult a doctor.

· After swallowing: Do not induce vomiting; immediately call for medical help.

· Information for doctor:

- Most important symptoms and effects, both acute and delayed Allergic reactions
- For symptoms and effects caused by substances, refer to Section 11.
- · Indication of any immediate medical attention and special treatment needed

No further relevant information available.

### 5 Fire-fighting measures

#### · Extinguishing media

· Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

· For safety reasons unsuitable extinguishing agents:

Do not use a jet water stream as it may scatter and spread fire.

# 7 Handling and storage

#### · Handling:

Printing date 08/15/2022

- · Precautions for safe handling
- Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care.
- Prevent formation of aerosols.
- Keep respiratory protective device available.
- · Information about protection against explosions and fires:
- Keep respiratory protective device available.

#### · Conditions for safe storage, including any incompatibilities

- · Storage:
  - Requirements to be met by storerooms and receptacles:
  - Observe the label precautions, the expiration date for the use, if not indicated, is from delivery date of goods.
  - In cases where there is no reported expiration date , it means that the product must be used within 8 months.
  - · Information about storage in one common storage facility: Not required.
  - · Further information about storage conditions: Keep receptacle tightly sealed.
- · Specific end use(s) Those typical of the product and the instructions in the data sheet if required.

#### 8 Exposure controls/personal protection

- · Additional information about design of technical systems: No further data; see item 7.
- · Control parameters
  - · Components with limit values that require monitoring at the workplace:
    - The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit.
  - At this time, the other constituents have no known exposure limits.

• on the eye:

(Contd. of page 8)

Strong caustic effect. Strong irritant with the danger of severe eye injury. Sensitization: Sensitization possible through skin contact. Additional toxicological information: Irritant Causes skin irritation. Causes serious eye damage. May cause an allergic skin reaction. May cause cancer. Route of exposure: Inhalation.

· Carcinogenic categories

Quartz.

No significant exposure to quartz is thought to occur during the use of products in which quartz is bound to other materials, such as resin, and for quantities present in the formula *Ethylbenzene* 

From IARC MONOGRAPHS VOLUME 77/2000

Human carcinogenicity data

Two studies of workers potentially exposed to ethylbenzene in a production plant and a styrene polymerization plant were available. In the first study, no excess of cancer incidence was found but the description of methods was insufficient to allow proper evaluation of this finding. In the second study, no cancer mortality excess was observed during the follow-up of 15 years.

#### Evaluation

There is inadequate evidence in humans for the carcinogenicity of ethylbenzene. There is sufficient evidence in experimental animals for the carcinogenicity of ethylbenzene.

• EMS Number:	F-A,S-F
· Stowage Category	A
Transport in bulk according to Annex II MARPOL73/78 and the IBC Code	of Not applicable.
Transport/Additional information:	
·DOT	
· Remarks:	Special marking with the symbol (fish ar tree).
· IMDG	
·IMDG	
· Limited quantities (LQ)	5L
	5L Code: E1
· Limited quantities (LQ)	Code: E1
· Limited quantities (LQ)	Code: E1 Maximum net quantity per inner packaging: 3 ml
· Limited quantities (LQ)	Code: E1 Maximum net quantity per inner packaging: 3 ml Maximum net quantity per outer packagin 1000 ml UN 3082 ENVIRONMENTALLY HAZARDOU SUBSTANCE, LIQUID, N.O.S. (4,4
• Limited quantities (LQ) • Excepted quantities (EQ)	Code: E1 Maximum net quantity per inner packaging: 3 ml Maximum net quantity per outer packagin 1000 ml UN 3082 ENVIRONMENTALLY HAZARDOU SUBSTANCE, LIQUID, N.O.S. (4,4 ISOPROPYLIDENEDIPHENOL, OLIGOMER REACTION PRODUCTS WITH 1-CHLORO-2,
• Limited quantities (LQ) • Excepted quantities (EQ)	Code: E1 Maximum net quantity per inner packaging: 3 ml Maximum net quantity per outer packagin
