1 Identification

- · Product identifier
 - · Product number TS533
 - Trade name: <u>TECHNOFINISH TOP-COAT 35GL</u> • Application of the substance / the mixture For professional use
- · Details of the supplier of the safety data sheet
 - *Manufacturer/Supplier:* IVM Chemicals Srl Viale della Stazione 3 -27020 Parona (PV)Italy -Tel +39 038425441
 - Information department: Environmental Health and safety office hseoffice @ivmchemicals.com
 - Emergency telephone number: ChemTel Expert Assistance Hotline/SDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

2 Hazard(s) identification

· Classification of the substance or mixture	•	
Flammable Liquids 2	H225	Highly flammable liquid and vapor.
Skin Irrititation 2	H315	Causes skin irritation.
Eye Irritation 2A	H319	Causes serious eye irritation.
Sensitization - Skin 1	H317	May cause an allergic skin reaction.
Carcinogenicity 2	H351	Suspected of causing cancer.
Toxic to Reproduction 2	H361	Suspected of damaging fertility or the unborn child.
Specific Target Organ Toxicity - Single Expo	sure 3H335-H3	36 May cause respiratory irritation. May cause drowsiness or dizziness.
Specific Target Organ Toxicity - Repeated Exposure 2	H373	May cause damage to the central nervous system and the hearing organs through prolonged or repeated exposure. Route of exposure: Oral and Inhalation.
Aquatic Chronic 3	H412	Harmful to aquatic life with long lasting effects.

· Label elements

· GHS label elements

The product is classified and labeled according to the Globally Harmonized System (GHS). • Hazard pictograms

· Signal word Danger

• Hazard-determining components of labeling: xylene ethylbenzene toluene

4 First-aid measures

· Description of first aid measures

· General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

personal protective equipment for first aid responders is recommended. (please see section 8) · *After inhalation:*

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation. · After skin contact: Immediately wash with water and soap and rinse thoroughly. Take off immediately all contaminated clothing, include underwear and shoes (if necessary). Rinse thoroughly with plenty of water for at least 20 minutes and take medical advise. If medical advise is needed have products container or label at hand. · After eve contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. · After swallowing; Do not induce vomiting; immediately call for medical help. · Information for doctor: · Most important symptoms and effects, both acute and delayed Allergic reactions For symptoms and effects caused by substances, refer to Section 11. · Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures · Extinguishing media · Suitable extinguishing agents: Alcohol resistant foam Alcohol resistant foam, CO, powder, water spray/mist. · For safety reasons unsuitable extinguishing agents: Do not use a jet water stream as it may scatter and spread fire. · Special hazards arising from the substance or mixture During heating or in case of fire poisonous gases are produced. In case of fire, the following can be released: Nitrogen oxides (NOx) Carbon monoxide (CO) Advice for firefighters Cool by spraying with water the containers to prevent product decomposition and the development of substances potentially hazardous for health and also, in the case of closed containers exposed to flames to prevent explosions. · Protective equipment: Hardhat with visor, fireproof clothing, suitable gloves and if necessary respiratory protective device. 6 Accidental release measures · Personal precautions, protective equipment and emergency procedures Mount respiratory protective device. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources · Environmental precautions: Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers/ surface or ground water. · Methods and material for containment and cleaning up: Absorb with liguid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Dispose contaminated material as waste according to Section 13.

Ensure adequate ventilation.

7 Handling and storage

· Handling:

Printing date 09/07/2022

- · Precautions for safe handling
- Ensure good ventilation/exhaustion at the workplace.
- Open and handle receptacle with care.
- Prevent formation of aerosols.
- Protect against electrostatic charges.
- Keep respiratory protective device available.
- Use explosion-proof apparatus / fittings and spark-proof tools.
- \cdot Information about protection against explosions and fires:
- Keep ignition sources away Do not smoke. Protect against electrostatic charges. Keep respiratory protective device available.

\cdot Conditions for safe storage, including any incompatibilities

- · Storage:
 - Requirements to be met by storerooms and receptacles:
 - Store in a cool, well-ventilated area, away from heat and sources of ignition
 - Provide solvent resistant, sealed floor.

Observe the label precautions, the expiration date for the use, if not indicated, is from delivery date of goods.

In cases where there is no reported expiration date , it means that the product must be used within 8 months.

- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed. Store in cool, dry conditions in well sealed receptacles.
- **Specific end use(s)** Those typical of the product and the instructions in the data sheet if required.
- 8 Exposure controls/personal protection
- · Additional information about design of technical systems: No further data; see item 7.
- · Control parameters
 - · Components with limit values that require monitoring at the workplace:
 - The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit.

At this time, the remaining constituent has no known exposure limits.

Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Store protective clothing separately. Avoid contact with the eyes and skin. Pregnant women should strictly avoid inhalation or skin contact. · Breathing equipment: Short term filter device: Suitable respiratory protective device recommended. Filter A · Protection of hands: Protective gloves Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation The glove material has to be impermeable and resistant to the product . · Material of gloves The selection of the suitable gloves does not only depend on the material, but also on

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Trade name:	TECHNOFINISH TOP-COAT 35GL

	(Contd. of page 1-
· Packing group · DOT, IMDG, IATA	11
· Environmental hazards:	
• Marine pollutant:	No
· Special precautions for user	Warning: Flammable liquids
• Hazard identification number (Kemle	
· EMS Number:	F-E,S-E
· Stowage Category	B
MARPOL73/78 and the IBC Code • Transport/Additional information:	Not applicable.
· IMDG	
\cdot Limited quantities (LQ)	5L
· Excepted quantities (\widetilde{EQ})	Code: E2
	Maximum net quantity per inner packaging: 3 ml
	Maximum net quantity per outer packaging
	500 ml

15 Regulatory information

· Safety, health and environmental regulations/legislation specific for the substance or mixture

Requirements of Federal Register

•			
	•	Various	regulations

· SARA

· S	ection 355 (extremely hazardous substances):	
None of the	e ingredients is listed.	
· S	ection 313 (Specific toxic chemical listings) :	
1330-20-7	xylene	20-24.99%
100-41-4	ethylbenzene	5-9.99%
67-63-0	propan-2-ol	2.5-4.99%
108-88-3	toluene	1-2.49%
80-62-6	methyl methacrylate	≥0.1-<0.5%
· TSC	A (Toxic Substances Control Act):	
All compor	ents have the value ACTIVE.	
· H	lazardous Air Pollutants	
1330-20-7	xylene	
100-41-4	ethylbenzene	
108-88-3	toluene	
80-62-6	methyl methacrylate
