

# Safety Data Sheet acc. to OSHA HCS

Printing date 08/15/2022

#### Version number 47

Reviewed on 08/15/2022

# **1** Identification

- · Product identifier
  - · Product number PX999
  - Trade name: <u>ADD X GLOSSY TOP-C</u>
    - $\cdot$  Application of the substance / the mixture For professional use

# · Details of the supplier of the safety data sheet

- Manufacturer/Supplier: IVM Chemicals Srl
   Viale della Stazione 3 -27020 Parona (PV)Italy -Tel +39 038425441
- Information department: Environmental Health and safety office hseoffice @ivmchemicals.com
- Emergency telephone number: ChemTel Expert Assistance Hotline/SDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

# 2 Hazard(s) identification

· Classification of the substance or mixture	
Flammable Liquids 2	H225 Highly flammable liquid and vapor.
Skin Irrititation 2	H315 Causes skin irritation.
Eye Irritation 2A	H319 Causes serious eye irritation.
Carcinogenicity 2	H351 Suspected of causing cancer.
Specific Target Organ Toxicity - Single Exposu	ire 3H335 May cause respiratory irritation.
Specific Target Organ Toxicity - Repeated Exposure 2	H373 May cause damage to the hearing organs through prolonged or repeated exposure.

Aquatic Acute 3 Aquatic Chronic 3 Route of exposure: Oral, Inhalation. H402 Harmful to aquatic life. H412 Harmful to aquatic life with long lasting

#### · Label elements

- · GHS label elements
  - The product is classified and labeled according to the Globally Harmonized System (GHS). • Hazard pictograms

effects.

· Signal word Danger

Hazard-determining components of labeling: xylene
ethylbenzene
Hazard statements
H225 Highly flammable liquid and vapor.
H315 Causes skin irritation.
H319 Causes serious eye irritation.
H351 Suspected of causing cancer.
H335 May cause respiratory irritation.

H373 May cause damage to the hearing organs through prolonged or repeated exposure. Route of exposure: Oral, Inhalation.

H402 Harmful to aquatic life.

# 4 First-aid measures

Printing date 08/15/2022

#### · Description of first aid measures

- · General information:
  - Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- personal protective equipment for first aid responders is recommended. (please see section 8) · After inhalation:
- In case of unconsciousness place patient stably in side position for transportation.
- · After skin contact:

Immediately wash with water and soap and rinse thoroughly.

Take off immediately all contaminated clothing, include underwear and shoes (if necessary). Rinse thoroughly with plenty of water for at least 20 minutes and take medical advise. If medical advise is needed have products container or label at hand.

#### • After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

· After swallowing: Do not induce vomiting; immediately call for medical help.

#### · Information for doctor:

- · Most important symptoms and effects, both acute and delayed
- For symptoms and effects caused by substances, refer to Section 11.
- · Indication of any immediate medical attention and special treatment needed No further relevant information available.

# 5 Fire-fighting measures

#### · Extinguishing media

- · Suitable extinguishing agents:
- Alcohol resistant foam
- Alcohol resistant foam, CO, powder, water spray/mist.
- · For safety reasons unsuitable extinguishing agents:
- Do not use a jet water stream as it may scatter and spread fire.
- · Special hazards arising from the substance or mixture

During heating or in case of fire poisonous gases are produced. In case of fire, the following can be released: Nitrogen oxides (NOx)

Carbon monoxide (CO)

Advice for firefighters

Cool by spraying with water the containers to prevent product decomposition and the development of substances potentially hazardous for health and also, in the case of closed containers exposed to flames to prevent explosions.

· Protective equipment:

Hardhat with visor, fireproof clothing, suitable gloves and if necessary respiratory protective device.

# 6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures Mount respiratory protective device. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources

# 7 Handling and storage

#### · Handling:

Precautions for safe handling

 Ensure good ventilation/exhaustion at the workplace.
 Open and handle receptacle with care.
 Prevent formation of aerosols.
 Protect against electrostatic charges.
 Keep respiratory protective device available.
 Use explosion-proof apparatus / fittings and spark-proof tools.
 Information about protection against explosions and fires:
 Keep ignition sources away - Do not smoke.
 Protect against electrostatic charges.
 Keep respiratory protective device available.

 Information about protection against explosions and fires:
 Keep ignition sources away - Do not smoke.
 Protect against electrostatic charges.
 Keep respiratory protective device available.

 Conditions for safe storage, including any incompatibilities

 Storage:
 Requirements to be met by storerooms and receptacles:
 Store in a cool, well-ventilated area, away from heat and sources of ignition

Store in a cool, well-ventilated area, away from heat and sources of ignition Provide solvent resistant, sealed floor. Observe the label precautions, the expiration date for the use, if not indicated, is from delivery date of goods. In cases where there is no reported expiration date , it means that the product must be used within 8 months.

· Information about storage in one common storage facility: Not required.

# 10 Stability and reactivity

· Reactivity typical of the product as indicated in the data sheet

- **Chemical stability** The product is stable in normal conditions of storage and use recommended • Thermal decomposition / conditions to be avoided:
  - No decomposition if used and stored according to specifications.
- Possibility of hazardous reactions

Reacts with oxidizing agents.

Vapours may form explosive mixtures with air

- · Conditions to avoid No further relevant information available.
- · Incompatible materials: Acids, alkalis and oxidizing agents
- · Hazardous decomposition products: No dangerous decomposition products known.
