#### **1** Identification

- · Product identifier
  - · Product number PF5T03
  - Trade name: UNIVERSAL DYE LIGHT WALNUT • Application of the substance / the mixture For professional use
- · Details of the supplier of the safety data sheet
  - Manufacturer/Supplier: IVM Chemicals Srl
     Viale della Stazione 3 -27020 Parona (PV)Italy -Tel +39 038425441
  - Information department: Environmental Health and safety office hseoffice @ivmchemicals.com
  - Emergency telephone number: ChemTel Expert Assistance Hotline/SDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

### 2 Hazard(s) identification

Classification of the substance or mixtureFlammable Liquids 3H226 Flammable liquid and vapor.Skin Irrititation 2H315 Causes skin irritation.Eye Irritation 2AH319 Causes serious eye irritation.Sensitization - Skin 1H317 May cause an allergic skin reaction.Carcinogenicity 2H351 Suspected of causing cancer.Toxic to Reproduction 1BH360 May damage fertility or the unborn child.Specific Target Organ Toxicity - Single Exposure 3H336 May cause drowsiness or dizziness.

Aquatic Acute 3H402 Harmful to aquatic life.Aquatic Chronic 3H412 Harmful to aquatic life with long lasting<br/>effects.

#### · Label elements

· GHS label elements

The product is classified and labeled according to the Globally Harmonized System (GHS). • Hazard pictograms

· Signal word Danger

Hazard-determining components of labeling: 1-methoxy-2-propanol
C.I. ACID BLACK 194
C.I. Acid Yellow 151
2-methoxypropanol
Hazard statements
H226 Flammable liquid and vapor.
H315 Causes skin irritation.

H319 Causes serious eye irritation.

H317 May cause an allergic skin reaction.

H351 Suspected of causing cancer.

H360 May damage fertility or the unborn child.

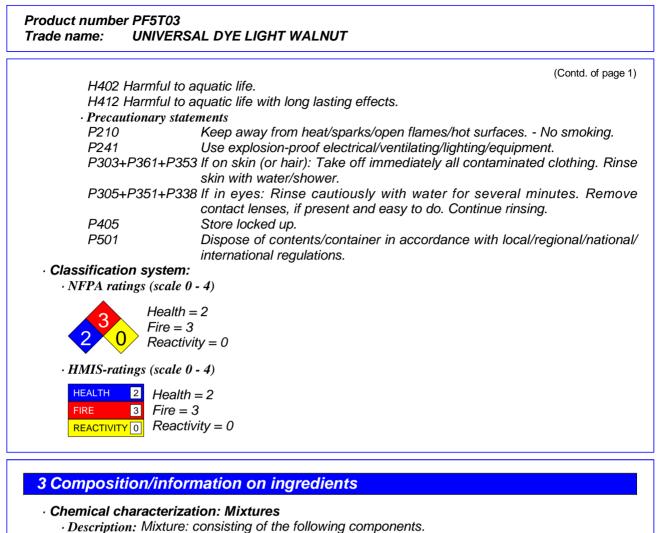

H336 May cause drowsiness or dizziness.

## 4 First-aid measures

#### · Description of first aid measures

- General information:
  - Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- personal protective equipment for first aid responders is recommended. (please see section 8)  $\cdot$  *After inhalation:*
- Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

• After skin contact:

Immediately wash with water and soap and rinse thoroughly.

Take off immediately all contaminated clothing, include underwear and shoes (if necessary). Rinse thoroughly with plenty of water for at least 20 minutes and take medical advise. If medical advise is needed have products container or label at hand.

#### · After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist , consult a doctor.

- After swallowing: Do not induce vomiting; immediately call for medical help.
- · Information for doctor:
  - Most important symptoms and effects, both acute and delayed Allergic reactions
  - For symptoms and effects caused by substances, refer to Section 11.
  - · Indication of any immediate medical attention and special treatment needed
  - No further relevant information available.

### 5 Fire-fighting measures

#### · Extinguishing media

- · Suitable extinguishing agents:
- Alcohol resistant foam
- Alcohol resistant foam, CO, powder, water spray/mist.
- · For safety reasons unsuitable extinguishing agents:
- Do not use a jet water stream as it may scatter and spread fire.

#### · Special hazards arising from the substance or mixture

In case of fire, the following can be released: Nitrogen oxides (NOx) Carbon monoxide (CO)

#### · Advice for firefighters

Cool by spraying with water the containers to prevent product decomposition and the development of substances potentially hazardous for health and also, in the case of closed containers exposed to flames to prevent explosions.

## 7 Handling and storage

· Handling:

· Precautions for safe handling

- Ensure good ventilation/exhaustion at the workplace.
- Open and handle receptacle with care. Prevent formation of aerosols.

Protect against electrostatic charges.

Keep respiratory protective device available.

Use explosion-proof apparatus / fittings and spark-proof tools.

(Contd. of page 4)

 Information about protection against explosions and fires: Keep ignition sources away - Do not smoke.
 Protect against electrostatic charges.
 Keep respiratory protective device available.

#### · Conditions for safe storage, including any incompatibilities

· Storage:

- Requirements to be met by storerooms and receptacles:
  - Provide solvent resistant, sealed floor.
  - Observe the label precautions, the expiration date for the use, if not indicated, is from delivery date of goods.
- In cases where there is no reported expiration date , it means that the product must be used within 8 months.
- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: Keep receptacle tightly sealed.
- Specific end use(s) Those typical of the product and the instructions in the data sheet if required.

#### 8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

#### · Control parameters

- $\cdot$  Components with limit values that require monitoring at the workplace:
- The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit.

At this time, the other constituents have no known exposure limits.

#### 107-98-2 1-methoxy-2-propanol REL Short-term value: 540 mg/m<sup>3</sup>, 150 ppm

Long-term value: 360 mg/m<sup>3</sup>, 100 ppm

TLV Short-term value: 100 ppm Long-term value: 50 ppm A4

#### 111-76-2 2-butoxyethanol

- PEL Long-term value: 240 mg/m³, 50 ppm Skin
- REL Long-term value: 24 mg/m<sup>3</sup>, 5 ppm Skin
- TLV Long-term value: 20 ppm BEI, A3

#### 112-34-5 2-(2-butoxyethoxy)ethanol

TLV Long-term value: 10\* ppm \*Inhalable fraction and vapor

#### 34590-94-8 (2-methoxymethylethoxy)propanol

- PEL Long-term value: 600 mg/m³, 100 ppm Skin
   REL Short-term value: 900 mg/m³, 150 ppm Long-term value: 600 mg/m³, 100 ppm Skin
- TLV Long-term value: NIC-50 ppm (Skin)

	· Ingredients with biological limit values:
	-76-2 2-butoxyethanol
BEI	200 mg/g creatinine Medium: urine Time: end of shift Parameter: Butoxyacetic acid (BAA) (with hydrolysis)
	• Additional information: The lists that were valid during the creation were used as basis.
-	Personal protective equipment: • General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Store protective clothing separately. Avoid contact with the eyes and skin. Pregnant women should strictly avoid inhalation or skin contact. • Breathing equipment: Short term filter device:
	Suitable respiratory protective device recommended.
	Protection of hands:     Protective gloves
	Due to missing tests no recommendation to the glove material can be given for the product Selection of the glove material on consideration of the penetration times, rates of diffiend the degradation The glove material has to be impermeable and resistant to the product . • Material of gloves The selection of the suitable gloves does not only depend on the material, but al further marks of quality and varies from manufacturer to manufacturer. As the product a preparation of several substances, the resistance of the glove material can in calculated in advance and has therefore to be checked prior to the application. • Penetration time of glove material The exact break through time has to be found out by the manufacturer of the prote gloves and has to be observed. • Eye protection:
	Tightly sealed goggles

#### 10 Stability and reactivity

· Reactivity typical of the product as indicated in the data sheet

- Chemical stability The product is stable in normal conditions of storage and use recommended • Thermal decomposition / conditions to be avoided:
  - No decomposition if used and stored according to specifications.
- · Possibility of hazardous reactions Vapours may form explosive mixtures with air
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: Acids, alkalis and oxidizing agents
- · Hazardous decomposition products: No dangerous decomposition products known.

## 13 Disposal considerations

· Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Hand over to hazardous waste disposers.

Dispose of contents and container in accordance with local state and federal regulations.

#### · Uncleaned packagings:

• Recommendation: Disposal must be made according to official regulations.

• Recommended cleansing agent: Water, if necessary with cleansing agents.

· Hazardous Air Pollutants	
72496-88-9 C.I. Acid Yellow 151	
· Proposition 65	
· Chemicals known to cause cancer:	
None of the ingredients is listed.	
· Chemicals known to cause reproductive toxicity for females:	
1589-47-5 2-methoxypropanol	≥0.1-<0.5%
· Chemicals known to cause reproductive toxicity for males:	
None of the ingredients is listed.	
· Chemicals known to cause developmental toxicity:	
None of the ingredients is listed.	
· Carcinogenic categories	
· EPA (Environmental Protection Agency)	
111-76-2 2-butoxyethanol	NL 20-24.99%
· TLV (Threshold Limit Value)	
111-76-2 2-butoxyethanol	A3
• NIOSH-Ca (National Institute for Occupational Safety and Health)	· ·
None of the ingredients is listed.
