## **1** Identification

- · Product identifier
  - · Product number TES1A02
  - Trade name: UV solv-b. clear sealer • Application of the substance / the mixture For professional use

#### · Details of the supplier of the safety data sheet

- Manufacturer/Supplier: IVM Chemicals Srl
   Viale della Stazione 3 -27020 Parona (PV)Italy -Tel +39 038425441
- Information department: Environmental Health and safety office hseoffice @ivmchemicals.com
- Emergency telephone number:
- ChemTel Expert Assistance Hotline/SDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

## 2 Hazard(s) identification

## · Classification of the substance or mixture

Flammable Liquids 4	H227 Combustible liquid. Flam. Liq. 4
Skin Irrititation 2	H315 Causes skin irritation.
Eye Damage 1	H318 Causes serious eye damage.
Sensitization - Skin 1	H317 May cause an allergic skin reaction.
Carcinogenicity 1A	H350 May cause cancer. Route of exposure: Inhalation.
Toxic to Reproduction 2	H361 Suspected of damaging fertility or the unborn child.
Aquatic Acute 2	H401 Toxic to aquatic life.
Aquatic Chronic 2	H411 Toxic to aquatic life with long lasting effects.

### · Label elements

- · GHS label elements
- The product is classified and labeled according to the Globally Harmonized System (GHS).
  - Hazard pictograms

· Signal word Danger

Hazard-determining components of labeling: oxybis(methyl-2, 1-ethanediyl) diacrylate Quartz (SiO2)
Glycerol, propoxylated, esters with acrylic acid hexamethylene diacrylate phenyl bis(2,4,6-trimethylbenzoyl)-phosphine oxide
Hazard statements
H227 Combustible liquid. Flam. Liq. 4
H315 Causes skin irritation.
H318 Causes serious eye damage.
H317 May cause an allergic skin reaction.
H350 May cause cancer. Route of exposure: Inhalation.
H361 Suspected of damaging fertility or the unborn child.
H401 Toxic to aquatic life.
H411 Toxic to aquatic life with long lasting effects.

· Precautionary state	ments
P210	Keep away from flames and hot surfaces. – No smoking.
P305+P351+P338	B If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a poison center/doctor.
P321	Specific treatment (see on this label).
P362+P364	Take off contaminated clothing and wash it before reuse.
P405	Store locked up.
P501	Dispose of contents/container in accordance with local/regional/national/ international regulations.
· Classification system:	
· NFPA ratings (scale 0	- 4)
Health = 300 Reactive	
• HMIS-ratings (scale 0	- 4)

## 4 First-aid measures

## · Description of first aid measures

· General information:

Immediately remove any clothing soiled by the product.

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

personal protective equipment for first aid responders is recommended. (please see section 8) · *After inhalation:* 

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

• After skin contact:

Immediately wash with water and soap and rinse thoroughly.

Take off immediately all contaminated clothing, include underwear and shoes (if necessary). Rinse thoroughly with plenty of water for at least 20 minutes and take medical advise. If medical advise is needed have products container or label at hand.

· After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist , consult a doctor.

• After swallowing: Do not induce vomiting; immediately call for medical help.

- · Information for doctor:
  - Most important symptoms and effects, both acute and delayed Allergic reactions
  - For symptoms and effects caused by substances, refer to Section 11.
  - Indication of any immediate medical attention and special treatment needed No further relevant information available.

## 5 Fire-fighting measures

## · Extinguishing media

· Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

· For safety reasons unsuitable extinguishing agents:

Do not use a jet water stream as it may scatter and spread fire.

· Special hazards arising from the substance or mixture

## In case of fire, the following can be released:

Nitrogen oxides (NOx)

Carbon monoxide (CO)

(Contd. on page 4)

## · Advice for firefighters

Printing date 09/07/2022

Chemicals

ners technolog

Cool by spraying with water the containers to prevent product decomposition and the development of substances potentially hazardous for health and also, in the case of closed containers exposed to flames to prevent explosions.

• Protective equipment:

Hardhat with visor, fireproof clothing, suitable gloves and if necessary respiratory protective device.

## 6 Accidental release measures

· Personal pi	recautions, protective equipment and emergency procedures	
	tive equipment. Keep unprotected persons away.	
	quate ventilation	
	from ignition sources	
	ntal precautions:	
	product to reach sewage system or any water course.	
	ective authorities in case of seepage into water course or sewage system	).
	to enter sewers/ surface or ground water. Ind material for containment and cleaning up:	
	liquid-binding material (sand, diatomite, acid binders, universal binders, s	sawdust)
Use neutrali		sawuusi).
	taminated material as waste according to Section 13.	
	quate ventilation.	
· Reference t	o other sections	
	7 for information on safe handling.	
	8 for information on personal protection equipment.	
	13 for disposal information.	
	Action Criteria for Chemicals

7 Handling and storage

### · Handling:

- Precautions for safe handling Ensure good ventilation/exhaustion at the workplace.
   Open and handle receptacle with care.
   Prevent formation of aerosols.
   Keep respiratory protective device available.
- · Information about protection against explosions and fires:
- Keep ignition sources away Do not smoke.
- Keep respiratory protective device available.

## · Conditions for safe storage, including any incompatibilities

- · Storage:
  - Requirements to be met by storerooms and receptacles:
  - Observe the label precautions, the expiration date for the use, if not indicated, is from delivery date of goods.
  - In cases where there is no reported expiration date , it means that the product must be used within 8 months.
  - · Information about storage in one common storage facility: Not required.
  - · Further information about storage conditions: Keep receptacle tightly sealed.
- Specific end use(s) Those typical of the product and the instructions in the data sheet if required.

## 8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

#### · Control parameters

• Components with limit values that require monitoring at the workplace:

At this time, the other constituents have no known exposure limits.

## Safety Data Sheet acc. to OSHA HCS

Version number 70

Reviewed on 09/07/2022

#### Product number TES1A02 Trade name: UV solv-b. clear sealer

(Contd. of page 6)

Filter A • Protection of hands:

Protective gloves

Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

The glove material has to be impermeable and resistant to the product .

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

#### · Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection:

Tightly sealed goggles

## 9 Physical and chemical properties

Information on basic physical and • General Information	chemical properties	
· Appearance:		
· Form:	Fluid	
· Color:	According to product specification	
· Odor:	Characteristic	
• Odor threshold:	Not determined.	
· pH-value:	Mixture is non-polar/aprotic.	
· Change in condition		
<ul> <li>Melting point/Melting range:</li> </ul>	Undetermined.	
<ul> <li>Boiling point/Boiling range:</li> </ul>	124-128 °C (255.2-262.4 °F)	
· Flash point:	79 °C (174.2 °F)	
· Flammability (solid, gaseous):	Not applicable.	
· Ignition temperature:	370 °C (698 °F)	
· Decomposition temperature:	Not determined.	
· Auto igniting:	Product is not selfigniting.	
· Danger of explosion:	Not determined.	
· Explosion limits:		
Lower:	1.2 Vol %	
· Upper:	7.5 Vol %

## 10 Stability and reactivity

- · Reactivity typical of the product as indicated in the data sheet
- **Chemical stability** The product is stable in normal conditions of storage and use recommended • Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.
- · Possibility of hazardous reactions Vapours may form explosive mixtures with air
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: Acids, alkalis and oxidizing agents
- · Hazardous decomposition products: No dangerous decomposition products known.

## **11 Toxicological information**

· Information on toxicological effects

· Acute toxicity:

· LD/LC50 values that are relevant for classification:

styrene polymerization plant were available. In the first study, no excess of cancer incidence was found but the description of methods was insufficient to allow proper evaluation of this finding. In the second study, no cancer mortality excess was observed during the follow-up of 15 years.

#### Evaluation

There is inadequate evidence in humans for the carcinogenicity of ethylbenzene. There is sufficient evidence in experimental animals for the carcinogenicity of ethylbenzene.

· National regulations:

The product is subject to be labeled according with the prevailing version of the regulations on hazardous substances.

· Information about limitation of use:

Workers are not allowed to be exposed to the hazardous carcinogenic materials contained in this preparation. Exceptions can be made by the authorities in certain cases.

· Chemical safety assessment: A Chemical Safety Assessment has not been carried out.
